

We are committed to making information accessible for you. All organisations that provide NHS or adult social care must follow the accessible information standard by law.

The aim of the accessible information standard is to make sure that people who have a disability, impairment or sensory loss get information that they can access and understand, and any communication support that they need.

Please click [here](#) to download the Accessible Information Request form for information to be provided in the formats below:

- Large print
- Easy Read
- Braille
- Via email
- Alternative languages
- Or other professional support if required, like British Sign Language (BSL)

**Accessible Information and Communication  
Format Request Form**

This form is also available in large print

|                 |  |
|-----------------|--|
| Name            |  |
| Address         |  |
| Telephone       |  |
| Date of Request |  |
| Email Address   |  |

**Request for information in an alternative format:**

|  |                |                 |           |                         |         |                  |
|--|----------------|-----------------|-----------|-------------------------|---------|------------------|
| Please select the format you require below       |                |                 |           |                         |         |                  |
| Insert an X<br>into the<br>box of your<br>choice | Large<br>Print | Easy to<br>Read | Via Email | Alternative<br>Language | Braille | Other<br>Support |
|  |                |                 |           |                         |         |                  |

Please complete in full and hand in to reception so we can make sure you  
have access to information you understand
